## Snowcuber | MK6

# It's time to act

Experience the most innovative snow machine.

The ultimate cost and time saving solution that also reduces CO2 emission. For keeping your aprons clean during snow season.

Preserve  
stand capacity

-50% Apron  
truck movements

-50% Snow volume

-50% Operational  
expenditure

CO<sub>2</sub> reduction

## Process vs Power

An efficient approach for clearing aprons faster.

Accurate and controlled  
snow disposal

Snow compressing airholes

Unique and patented technique

- ❄ **Compressing** the amount of snow by at least a factor of two. This will strongly decrease the amount of dump trucks on your apron and air craft stands.
- ❄ **Maintaining** volume by controlled loading, allowing the capacity of a dump truck to be increased from 18 to more than 25 cubic meter.

ZÜRICH AIRPORT

"The speed of the machine is slower, but the total snow clearing process is much more effective and faster!"

Zürich Airport

Fleet management

## Accurate and controlled snow disposal

The Snowcuber is able to accurately load snow into the dump truck. Maximizing load capacity and decreasing the amount of dump trucks.

## Wet snow removal

The Snowcuber is capable of easily clearing all sorts of snow. The impeller effortlessly launches wet snow into the compression module.

## Logically build-up control panel

Experience the  
most innovative  
snow machine.

Dimensions MK6

## SNOWCUBER MK6

Total width	4027 mm
Overall length	2261 mm
Total height (compressor folded, excluding marking)	2683 mm
Total height (compressor up)	5070 mm
Weight	3800 kg
Snow capacity	500 T/HR
Maximum hight lory loading	4000 mm

## VARIO TRANSMISSION TRACTOR

Minimum	200 hp
Maximum	250 hp
Front hitch	CAT3
Minimum lifting capacity front hitch	50 kN
Front PTO CCW rotation	1000 rpm
Hydraulic function	Front
